Representative John McCoy

38th Legislative District

How You Can Reach Me

My name is John McCoy.

I'm certainly very proud to join Senator Aaron Reardon and Representative Jean Berkey on your 38th Legislative District team. As you know, our district includes Everett, Marysville, Tulalip, and the surrounding communities of Snohomish County. It is a great honor to serve all of our citizens in the Washington State House of Representatives.

Working Together. That's exactly what it takes to strengthen our towns, our state, and our country. *Working Together* is a team effort — and a *bipartisan* effort, as well! It's our responsibility to improve schools, to foster economic development, and to provide other essential services for Washington citizens.

Legislators must always answer to their neighbors in their home counties, including:

- Young people who have just started out.
- Families who have worked years getting settled.
- Senior citizens who have invested a lifetime making this nation a better place.

As one of your legislators, I promise to work *with* you. Always.

Derek Baker, my assistant, and I look forward to hearing and reading what you think. We want to know your opinions about the Legislature, about state government, and about anything else that's on your mind. As one of your legislators, it's my privilege and responsibility to work with you and other citizens in a swift and professional manner.

How I Can Help You

You're always welcome to contact me, particularly when:

- **You have a problem with a state agency.**

Don't hesitate to call or write if you're having difficulty getting an answer from someone or some office in state government. We'll help find the answers you need to get to the bottom of your questions and concerns.

- **You have a question or concern about specific legislation.**

To represent our Snohomish County region most effectively, I need to know what you think about legislative proposals. Please call or write if you want to know details on a proposed law or issue that you've read or heard about. We'll send you a copy of the bill and other information — whatever it takes to fill in any blanks you have about the matter.

- **You have a plan for legislation.**

Contact my office whenever you have an idea that you think should be a state law — or if you want to abolish an existing state law. Believe me: Ideas from citizens frequently make the most common sense!

- **You have a desire to testify on a bill.**

If you feel strongly about a bill or issue, please give some thought to testifying before a legislative committee. Representatives and senators need to hear what people think. My office can let you know when hearing dates are scheduled.

- **You have a need for any other assistance with a state-government question.**

If you want a suggestion to help resolve any other problem, I promise we'll always do our very best!
